David Natroshvili

Profile

Junior C# developer. Proficient in an assortment of technologies, including ASP.NET, C#, Azure, Microsoft SQL Server, Docker, Bootstrap and MongoDB. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

Employment History

Junior Software Developer at Smart Tech, Remote

01/2021–02/2023

As a junior software developer, some of my key responsibilities were:

1. Writing, testing, and maintaining high-quality code.
2. Debugging and fixing software bugs.
3. Collaborating with a team of developers, designers, and stakeholders to deliver projects.
4. Participating in code reviews to maintain code quality and consistency.
5. Learning new technologies, programming languages, and software development practices.
6. Following best practices and coding standards.
7. Participating in the software development lifecycle, including design, development, and deployment.
8. Contributing to technical documentation.
